

Sociology

<p>Description of Subject:</p>	<p>Does patriarchy still exist? Are people born criminal? Is educational achievement affected by gender, ethnicity or social class? What is the link between globalisation and terrorism?</p> <p>If investigating questions like these sounds interesting then Sociology may be for you. This course combines the study of contemporary social issues and trends in behaviour with sociological theory and research. You have the opportunity to explore these issues via debate, individual and group research, problem solving and discussion.</p>
